Be READY VR Nursing

Dimensions/ Weight	Dimensions: 36 cm L x 22 cm W x 13.5 cm H Ship weight: 2.3 kg (5.07 lbs)
Product Codes/SKUs	**MVRG-010** – VR Goggles Oculus (META) Quest 3, requires active license, not for standalone sale **MVRL-N010** – Be READY VR Nursing Patient Simulator Software, lifetime, per device, goggles not included **MVRL-NDGL** – Be READY VR Nursing Desktop Software, 2 years, unlimited users, hardware not included **MVRL-NAPP** – Be READY VR Nursing Android Tablet App Software, 2 years, sold in packages of 20, tablet not included **MVRL-NTBL** – Be READY VR Nursing Interactive Table Software, 2 years, per device, table not included **MVRL-NTGL** – Be READY VR Nursing Interactive Table Software, lifetime, per device, table not included **MVRL-NDES** – Be READY VR Nursing Desktop Software, 2-year subscription, per person, sold in packages of 20, hardware not included **MVRL-NED2534** – Be READY VR Nursing Patient Simulator Software, 2 years, per device, additional volume discount for 25+ pieces, goggles not included **MVR-NCM01** – Case Manager Web Service, 50 case scenarios, 1 year **MVR-NCM02** – Case Manager Web Service, 100 case scenarios, 1 year
Hardware Specifications	Compatible with Meta Quest 2, Meta Quest 3S, and PICO 4 Ultra VR headsets. Interactive Table: • Touchscreen Device: Windows-based interactive panel or tabletop system • Processor: Intel Core i5 2.3 GHz or higher • RAM: ≥ 8 GB • Graphics Card: NVIDIA GeForce GTX 1650 or equivalent • Disk Space: ≥ 6 GB free • Resolution: Minimum 1280 × 1024 • OS: Windows 10 / 11

Nasco HEALTHCARE

Be READY VR Nursing
Virtual nursing simulation for clinical skills, patient care, and decision-making

Part of the Be READY VR Portfolio
Immersive VR • Desktop Software • Tablet App • Interactive Table

Nasco HEALTHCARE

Build Nursing Confidence Through Realistic Patient Care

Be READY VR Nursing is a virtual simulation platform designed to help nursing learners practice essential clinical skills and patient care decision-making in realistic healthcare environments.

Learners assess patients, monitor vital signs, administer treatments, and respond to evolving clinical conditions while interacting with virtual patients and medical equipment.

With **40+ nursing** simulation scenarios, the platform supports the development of clinical judgment, technical skills, and patient care competencies across nursing education and training programs.

Key Features

- Low price
- Special pricing for classrooms
- Automatic updates during active subscription

- Industry leading graphics
- Minimum space for product use is 4 sq. ft.

- Lifetime license for VR simulator set
- Desktop and interactive table licenses also available

- Unique teleportation feature
- Fast setup, load and response time

- 40+ nursing scenarios
- Case manager for creating and editing cases
- Smart Center with Spectator features for managing and tracking performance
- Over 100 interactive items

- Multiplayer (Crew Resource Management)
- Ideal for nursing schools and sim centers
- Multiple languages: English, Spanish, Arabic, German, Portuguese, French, Chinese, Korean, Chinese in Taiwan (Traditional), Filipino, and Vietnamese

Train Clinical Decision-Making Through Interactive Simulation

Scenario Library

40+ nursing clinical scenarios

Simulation cases replicate common nursing care situations and guide learners through patient assessment, monitoring, and treatment.

Scenario categories include:
- Emergency nursing skills
- Patient monitoring and assessment
- Medication administration
- Medical device management
- Chronic and complex care scenarios

Learners

Learners practice essential nursing skills during simulation scenarios.

- Assess patient condition and symptoms
- Monitor vital signs and patient status
- Administer medications and treatments
- Operate hospital medical devices
- Respond to changes in patient condition

Learners interact with 100+ clinical instruments, equipment items, and medications throughout simulation scenarios.

Instructor Tools

Smart Center: Monitor sessions, track learner performance, and support facilitated debriefing.

Case Manager: Edit existing cases or create custom scenarios aligned with institutional protocols.

Create up to 30 new cases during the first year of license.

Flexible Simulation for Any Learning Environment

Be READY VR Nursing can be deployed across multiple learning environments to support classroom instruction, simulation labs, and distributed training programs.

Immersive VR

Headset-based simulation that places learners inside interactive clinical environments.

Tablet Application

Mobile access to simulation scenarios for distributed learning.

Desktop Software

Scenario-based training on standard Windows computers for individual or classroom use.

Interactive Table Software

Collaborative simulation on large touchscreen displays for group training.
