- Sh. wt. 32 lbs.

808-6000U – \$1,020.00

TRAUMA MOULAGE KIT

Simulaids Trauma Moulage Kit

Can be used with any Rescue manikin, the WMD/CBRNE/DECON Full-Body Trainer (101-088FBU), or the Trauma CPR Manikin (100-2700U), (100-2725U). Application of these realistic bleeding moulages to a full-body manikin facilitates quick identification, diagnosis, and dressing of wounds by trainees. Kit includes compound fractures, contusions, lacerations, evisceration, sucking chest wound, impalement, crushed foot, jaw wound, and projectile entry and exit of arm. These bleeding wounds strap on and are complete with pump assembly. Simulated blood is included. Non-bleeding strap-on wounds include 2nd and 3rd degree burns of the chest, back, forearm, and face. Manikin sold separately.

Sh. wt. 9 lbs.

800-670IU Light

Z-MEDICA® HEMORRHAGE CONTROL TRAINING KIT WITH BIOFEEDBACK

Z-Medica® Hemorrhage Control Training Kit with Biofeedback

- Advanced training tool with proprietary app software which, when used with a smartphone or tablet, provides real-time PSI measurement of the force being applied to the source of the bleeding
 - Following successful completion of the web-based training program, it is recommended that all end users perform a practical demonstration of their skills under the direction of a qualified instructor
 - Includes training leg, table stand, tablet, and case
- Sh. wt. 27 lbs.

100529U – \$2,450.00

Z-MEDICA® TRAUMA TRAINER

Z-Medica® Trauma Trainer

- Efficiently scaled to approximate the thigh region with a combination of a knife wound and with both entry and exit wounds of a 9 mm gun round (3 wounds total)
 - Simulation presents significant tissue loss that is expected in an aggressive assault environment that will require quick rescue intervention
 - Simulator can be used with hemostatic dressings, tourniquets, or related products to address large irregular wounds and the risks associated with large blood loss
- Sh. wt. 4 lbs.

100851U – \$318.50
